

# Luna Belt Sander "Favourite"

"Favourite" enables sanding of different shapes of wood. Useful for the handyman, but also for the craftsman, who needs a simple and moveable belt sander.

Provided with length as well as cross stop and motor 220 V single phase for connection to ground terminal.

The sanding belt runs on two 80 mm rolls on ball bearings.

Moreover the sanding belt is vertically adjustable by means of a handwheel. Simple and easy change of sanding belts via a springloaded stretching device. The machine is intended for bench mounting but can also be mounted on a wall.

**Delivered with:**

1 sanding belt and 1 lever for belt stretching el. motor single phase 220 V.

All el. equipment protection form IP 54.
