

Finishes & Waxes

Finished with Spectrum Range Spirit Stains, White Liming Wax and Carnauba Wax.

Finished with Spectrum Range Spirit Stains, Cellulose Sanding Sealer Aerosol and Melamine Lacquer Aerosol.

Finished with Spectrum Range Spirit Stains, Metallic Spirit Stains, Acrylic Sanding Sealer and Acrylic Gloss.

Finished with Finishing Oil.

SANDING SEALERS

Cellulose Sanding Sealer

A fast-drying universal sealer, this is a perfect base for melamine lacquer, friction polish, carnauba wax and many other finishes. It can be used unthinned, although better results are achieved on larger objects if the sealer is thinned to improve coverage.

CWA210/1	Cellulose Sanding Sealer 1 Litre	£13.99
CWA210/5	Cellulose Sanding Sealer 500ml	£8.99
CWA211/5	Cellulose Thinners 500ml	£7.99
CWA210/A	Cellulose Sanding Sealer, Aerosol 400ml	£6.99

Shellac Lacacote Sanding Sealer

This is an ideal sealer for use with friction polish and waxes and is used extensively for furniture restoration and cabinet work.

CWA220/5	Shellac Lacacote Sanding Sealer 500ml	£8.99
-----------------	---------------------------------------	--------------

Acrylic Sanding Sealer

A solvent based self cross-linking sealer with excellent sanding properties, making it an excellent base for spirit stains and acrylic lacquer.

CWA230/A	Acrylic Sanding Sealer - Aerosol 400ml	£7.99
-----------------	--	--------------

LACQUER

Acrylic Lacquer

This solvent based, high performance lacquer can be built up from bare wood or over acrylic sealer. It is quick drying and very hard wearing, complying with BN 6250 severe resistance. It can be brushed, sprayed, or wiped and the gloss lacquer can be burnished to a mirror finish. Complies with EN71 for use on toys.

CWA231/5	Acrylic Lacquer 500ml	£6.99
CWA232/A	Acrylic Satin Lacquer Aerosol 400ml	£6.99
CWA233/A	Acrylic Gloss Lacquer Aerosol 400ml	£6.99

Melamine Lacquer

A very popular finish, this is an ideal top coat for cellulose sanding sealer. Melamine has excellent heat and water resistance and can be burnished to an impressive high gloss. It is the perfect finish for object which will be handled frequently, such as light pulls and key fobs. Complies with EN71 for use on toys.

CWA240/5	Melamine Lacquer 500ml	£9.99
CWA240/A	Melamine Gloss Lacquer, Aerosol 400ml	£7.99

Ebonizing Lacquer

For use over cellulose and acrylic sanding sealer to give a convincing ebony effect. It also gives an excellent base for more specialised colouring work.

CWA241/A	Ebonizing Lacquer - Aerosol 400ml	£6.99
-----------------	-----------------------------------	--------------

POLISH

Friction Polish

This classic shellac based high gloss finish is ideally suited for use on the lathe, it gives best results when applied over cellulose sanding sealer although it can also be applied to bare wood, thanks to the china clay which fills the grain. Speed an Eez is available in neutral and dark colours, to suit all wood types and contains 30% more shellac than most friction polishes to ensure a superb finish. To achieve greater durability and even more depth and lustre, carnauba wax can be applied over the friction polish.

CWA190	Speed an eez Friction Polish (White) for Light Timbers	£9.99
CWA191	Speed an eez Friction Polish (Dark) for Dark Timbers	£9.99
CWA192	High Build Friction Polish (500ml)	£9.99

French Polish

Commonly used on walnut, oak and mahogany, French polish gives a unique appearance and is used to produce a warm, dark transparent film. This traditional furniture finish can also bring surprising results if used on turned and carved projects and enhances well figured timbers. If a base is required, shellac sanding sealer should be used.

CWA280/5	French Polish 500ml	£9.99
CWA281/5	French Polish Thinners 500ml	£4.99

CREAM

Burnishing Cream

A mildly abrasive cleaner which smooths and cleans finishes. It can also revive polish that has lost its lustre. It is easy to use on a wide range of materials from classic French polish or varnishes to modern materials including ivory, brass and mother of pearl. It is also popular with woodturners for a superb finish on acrylic pens. Burnishing cream is ideal for use over melamine and acrylic lacquers, especially over spirit stains.

CWA270/5	Burnishing Cream 500ml	£9.99
-----------------	------------------------	--------------

WAX

Carnauba Wax

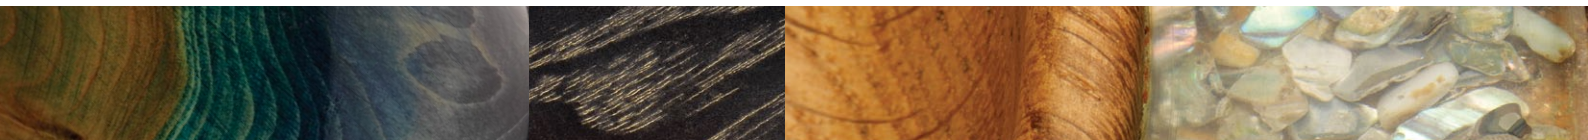

Ideal for polishing on a lathe to give a long lasting, hard wearing and high gloss finish. Use over Speed an eez Friction Polish, applying small quantities and buffing with a clean cloth while turning. Ideal for all types of timber. Complies with EN71 for use on toys.

CWA200	Carnauba Wax	£3.99
---------------	--------------	--------------

Cutting Wax

This clear wax contains a mild abrasive to remove imperfections from finishes and for cutting back when re-finishing. Ideal for use either alone or with abrasives during surface preparation to achieve a perfect base for carnauba and clear paste wax.

CWA202	Cutting Wax, Natural 400ml	£10.99
---------------	----------------------------	---------------

Finished with Clear Paste Wax.

Finished with Shellac Lacacote Sander, Speed an Eez Friction Polish (White) and Carnauba Wax.

Finished with Citrus Oil.

Finished with French Polish.

Clear Paste Wax

Made from the purest and hardest natural waxes available including beeswax, carnauba and shellac wax. This is the wax of choice of many professional woodturners, cabinet makers and carvers.

CWA201 Clear Wax 400g **£7.99**

White Liming Wax

This white wax is used to create a limed effect on open grained timbers such as Oak and Ash and can also be used to accentuate texture.

CWA203 White Liming Wax 400g **£7.99**

OILS

Finishing Oil

Ideal for woodturners and cabinet makers alike, finishing oil combines the hard wearing properties of tung oil with other quality oil resins to provide a tough finish resistant to alcohol, water and heat whilst enhancing the wood's natural qualities. It can be buffed to a high gloss finish or left with a matt effect, giving total control of the final finish. It is suitable for all interior woodwork, especially kitchen and bathroom work surfaces, tables and other furniture which are in constant use. It is also suitable as a high quality exterior (teak) wood oil. Complies with EN71 for use on toys.

CWA263/1 Finishing Oil 1 Litre **£15.99**

CWA263/5 Finishing Oil 500ml **£8.99**

Danish Oil

This traditional Scandinavian oil is extremely flexible and suitable for all types of wood and is an ideal choice for those with limited character such as holly and poplar, as it darkens and enhances the natural beauty of the grain. It is easy to apply, drying to a satin finish and is heat and alcohol resistant. Complies with EN71 for use on toys.

CWA261/5 Danish Oil 500ml **£8.99**

Tung Oil

Tung oil gives an attractive, warm and hard wearing natural satin finish which does not build up on the surface. Ideal for salad bowls, chopping boards and other food contact surfaces. Water, heat and alcohol resistant. Complies with EN71 for use on toys.

CWA262/5 Tung Oil 500ml **£10.99**

Citrus Oil

Citrus oil is a fast drying and versatile finish with essential oils of mixed citrus fruits to give a delightful fresh scent and satin finish. The aroma gradually fades when exposed to the atmosphere and is ideal for use inside cabinet drawers and lidded bowls, where the scent will remain much longer. Complies with EN71 for use on toys.

CWA264/5 Citrus Oil 500ml **£9.99**

Food Safe Oil

Ideal for salad bowls, chopping boards and other food contact surfaces. The soft satin finish provides strong water resistance that can be safely wiped with a damp cloth. Complies with EN71 for use on toys.

CWA260/5 Food Safe Oil 500ml **£8.99**

SPIRIT STAINS

Light Fast Spectrum Range Spirit Stain Pack

These have been formulated to give a stain that is both light fast and non grain-raising. They can be applied by either brush, rag or spray and mixed to achieve a vast range of colours. They can also be used under all types of lacquers and to tint lacquers (taking care to not exceed the proportion of 20% stain to lacquer). The packs are very long lasting and come with a pre-pierced nozzle to enable precise dispensing. They are suitable for use on all woods although for dynamic blending a tight-grained wood will give the best results. Once the wood is stained it should be sealed with either acrylic or cellulose sanding sealer.

CWA290 Light Fast Spectrum Range Spirit Stain Pack, 8 x 30ml **£14.99**

Light Fast Metallic Spirit Stain Pack

These metallic stains are a true stain rather than a gilt cream. They can be used alone, over the spectrum stains and over ebonizing lacquer to achieve a subtle metallic sheen. After application the wood should be sealed with either acrylic or cellulose sanding sealer.

CWA291 Light Fast Metallic Spirit Stain Pack, 5 x 30ml **£14.99**

OTHER FINISHING PRODUCTS

Furniture Cleaner & Reviver

Removes old wax, dirt, smoke and everyday grime from antique and modern furniture and interior woodwork without harming the original finish. This unique formula should not lift veneers or raise the grain, making it suitable for even the most delicate surfaces. It is also ideal for cleaning part-turned blanks which have accrued dust and grime.

CWA271/5 Furniture Cleaner & Reviver 500ml **£5.99**

Surface Preparation Pack

Preparation is of the utmost importance for achieving the best finish. This pack has been put together using years of professional experience to achieve the perfect finish. The pack contains a general purpose hand pad, very fine hand pad, ultra fine hand pad, polishing hand pad, polishing cloth, application cloth and tack cloth.

CWA-WFP6 Surface Preparation Pack **£12.99**
