

TS250C 10" Cabinet Maker's Saw with Sliding Beam

This innovative table saw has been designed to provide the serious home cabinet or furniture maker with a solid, accurate and versatile machine in a compact form. Boasting many features only found on much more expensive table saws, this machine offers real value for money without compromising quality or flexibility.

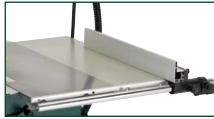

The table is made from finely ground cast iron, providing weight, rigidity and an unbeatable working surface. Importantly, many machines in this sector only have an 8" blade with small capacity but the TS250C has a 10" blade, enabling an impressive 80 mm depth of cut. The blade is powered by a superior quality belt driven 2 hp induction motor for smooth, quiet, long lasting performance. The rack and pinion rise and tilt features two separate handles for rise and fall of the blade and for blade tilt. The whole saw unit is cast iron and is supported on the welded steel frame by two large cast iron trunnions, machined for smoothness and accuracy.

The solid rip fence features a heavy extrusion mounted on a heavy cast iron mount with micro adjustment, which in turn is fitted to a solid steel bar for maximum rigidity and support.

The machine is supplied on a solid cabinet base with an optional jockey style wheelkit available.

RRP £929.99

OPTIONAL FITMENTS

TS200-E-MK2 Right Hand Extension Table
A steel extension supplied with longer bar increasing the maximum rip to 610 mm.
RRP £99.99

TS250C-W Wheelkit
Easy to use wheelkit allowing the machine to be moved about the workshop with ease.
RRP £99.99

Easily handles compound mitre cuts.

OPTIONAL ACCESSORY

CWA195 Silicone Spray 500ml
Anti static properties make it ideal for treating machinery, designed to stop the adhering of many messy substances to most surfaces.
RRP £7.99

Cross Cut Fence The TS250C is supplied with a locking cross cut fence with easy to read scale.

Durable Design Heavy cast iron trunnions at each end of the cast saw housing with wide machined guards for accurate, smooth table tilt. Mounted on to the hardened steel frame to isolate vibration from the table.

Saw Unit Motor and blade housed in heavy cast iron saw unit for rigidity and strength.

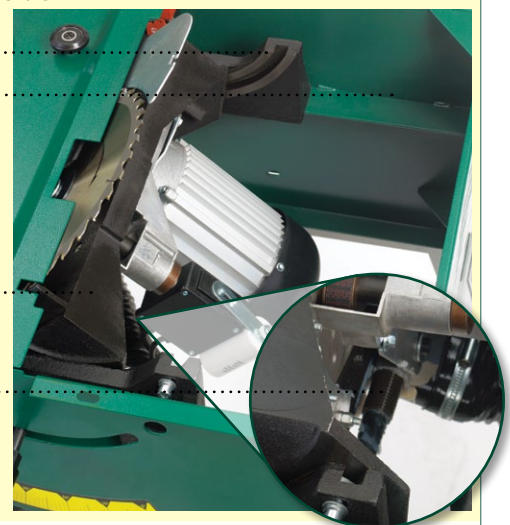

What's on the Inside

Heavy cast trunnion

Trunnion securely held on a welded frame

Cast saw unit

Heavy ACME threaded bars for tilt and rise & fall

Not all machines are the same. Whilst looking impressive from the outside - it is what's on the inside that really counts and Record Power table saws are much more heavily constructed than most competition at the same price. Make sure you research alternatives thoroughly and look inside if you can.

SPECIFICATIONS

MAXIMUM BLADE SIZE: 250 mm
BLADE BORE: 30 mm
BLADE SPEED: 4000 rpm
MAXIMUM RIP CAPACITY: 305 mm
MAXIMUM RIP WITH RIGHT HAND EXTENSION: 610 mm

SLIDING CARRIAGE STROKE: 620 mm
BLADE TILT: 0 - 45°
MAXIMUM DEPTH OF CUT 90°: 80 mm
MAXIMUM DEPTH OF CUT 45°: 56 mm

TABLE HEIGHT FROM FLOOR: 890 mm
MOTOR: 2 hp
WEIGHT: 110 kg
SIZE: H1090 x W1100 x D1100 mm

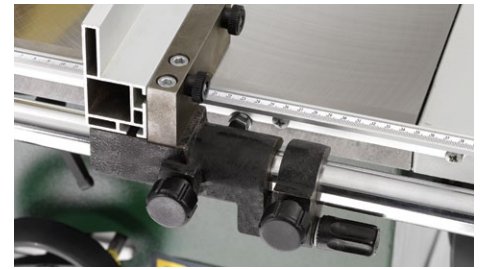

Sliding Carriage Industrial style sliding beam for maximum cross-cutting accuracy (600 mm stroke capacity). Right up to the blade and machined for accuracy - a feature normally only found on much more expensive machines. Beam is supported by the machine frame rather than being bolted to the side like many other competitor models.

Wide Ripping A maximum capacity of 610 mm can be achieved using the optional table extension.

Robust Fence System The heavy extrusion is fixed to a solid cast iron mount and fitted with micro-adjustment. The whole unit slides smoothly on an industrial style solid steel bar, which has adjustment that will stay put once set.

Table The main table is made from cast iron and is surface ground for an accurate, smooth surface.

Rise and Fall Separate rise and fall table tilt handwheels - providing smooth and accurate control via thick steel bars with rolled acme threads for fast smooth action.

Shown with optional right hand extension table.

HARD BODIED PROFESSIONAL TCT BLADES

250mm (10") Blades

RPSB25020	TCT Saw Blade 250 mm x 30 mm Bore (Z=20 Teeth)	£39.99
RPSB25032	TCT Saw Blade 250 mm x 30 mm Bore (Z=32 Teeth)	£46.99
RPSB25048	TCT Saw Blade 250 mm x 30 mm Bore (Z=48 Teeth)	£54.99
RPSB25048P	TCT Saw Blade 250 mm x 30 mm Bore (Z=48 Teeth)	£79.99
