

## Log Cross-conveyor

4-fold chain, with heavy duty conveyor chains for round logs up to 6,0 m length with various drive and electrical control, electrically connected, 4,0 m long

Rhquerf      **Log Cross-conveyor with drive and electrical control**      € 20.371,00

## Disk separation unit

for round logs up to 6,0 m length and 300 mm diameter with drive and autom. electrical control.

Vereinzel      **Disk separation unit with drive and autom. control**      € 16.974,00

## Chopsaw unit

consisting of a 4-disk chopsaw with 800 mm disk diameter with electric drive and electrical control, 4 separate saw shafts for cutting width 800 mm, 1000 mm, 1200 mm und 1400 mm (w/o saw blades)

Rhkapp      **Chopsaw unit with electrical drive 37 kW, 380 V, 50 Hz**      € 47.525,00

### Optionals

Kreis800h      **Sawblade 800 mm, carbide tipped**      € 1.081,00

## Helix Rolling table

with driven Helix-Rolls, 15 m long (partly integrated under the chopsaw) with automatic control.

Helixrollg      **Helix-Rolling table with drive and automatic control**      € 23.763,00

Helixverl      **Extension for Helix-Rolling table (per meter)**      on request

This log loading station with chopsaw is suitable for both sizes of the following machines.

## Twin-Bandsaw 700

**Vertical Headrigs** (faced to each other) with 700 mm band wheels for 54 mm wide sawblades, with main drive attachment, synchronous hydr. depth setting 80 - 300 mm, hydr. blade tensioning with sensor for control the tensioning pressure, adjustable blade guides, autom. blade lubrication, dust extraction point 150 mm,

**log infeed system**, 4,5 m with hydr. driven feeding chain with automatic lowering feeding fingers, for 1,50 m logs with various feeding speed, 4 pneumatic loaded toothed hold down roller (two before and two behind the blades), incl. electric box

TWIN70e	<b>with 2 x 11 kW electric motor 380 V, 50 Hz</b>	€ 50.919,00
TWIN01	<b>Bark disposal conveyor with ejection</b> (sensor controlled, ejection in central tub)	€ 11.543,00
TWIN02	<b>Digital depth set indicator</b> for Twin- and Re-bandsaw	€ 6.794,00
TWINSORT	<b>Sorting/ disposal conveyor</b> (for bark)	€ 4.876,00
TQHD7SgbS	<b>Sawblades sprung set (BI-Metal)</b> package (10 off)	€ 957,00
ShrmTQE	<b>PEZZOLATO- Sharpening machine PSM54</b> with manual setter	€ 5.218,00

## Re-Bandsaw 700

for horizontal off cut of the bark after and in combination with a Twin-Bandsaw, consisting of:

**Horizontal headrig** with 700 mm band wheels for 54 mm wide sawblades, complete with drive unit, hydr. depth setting up to 300 mm, adjustable cutting width, hydr. blade tensioning with sensor for pressure control, adjustable blade guide, autom. controlled blade lubrication, with guiding roller, dust extraction connection 150 mm, electrically connected.

TRK70EZ	<b>with 11 kW electric motor 380 V, 50 Hz</b>	€ 20.371,00
	<b>Extensions</b>	
TWINverl 01	<b>Feeding chain extension for 2,5 m cutting length</b>	on request
TWINverl 02	<b>Extension of bark disposal unit for 2,5 m</b>	on request
TWINverl 03	<b>Extension of sorting/ disposal conveyor for 2,5 m</b>	on request

## Multi Head Bandsaw 700

**Horizontal Headrig** with 700 mm band wheels for 54 mm wide sawblades, drive unit, depth setting up to 300 mm, hydr. blade tensioning with sensor for control of the tensioning pressure, adjustable blade guide, autom. controlled blade lubrication, dust extraction connection 150 mm, electrically connected ready for use.

**Standard feeding unit** consisting of hydr. driven napped conveyor belt with various drive and top working, self lifting hold down belts/ roller in front of every headrig, lateral guiding shields for three side edged 1,5 m long log models or beams.

MK70.5e	<b>Five Head Bandsaw</b> each with 11 kW elektric motor 380 V, 50Hz	€ 118.808,00
Mk70.Xe	<b>add. / deduction per headrig</b>	€ 23.762,00
TQHD7SgbS	<b>Sawblades sprung set (BI-Metal)</b> package (10 off)	€ 957,00
Rundl.A	<b>autom. roundabout</b> (outfeed side) with board deflector	on request
Rundl.E	<b>autom. roundabout</b> (infeed side)	on request
Abweiser	<b>single board deflector</b> (outfeed side)	on request
Anprroll	<b>add hold down roller with drive</b> (lateral or top working)	€ 2.073,00
MKRückl	<b>return conveyor belt</b> (per meter)	€ 1.363,00
MK70.1e	<b>Single Head Bandsaw</b> (hold down roller w/o drive) <b>with return conveyor</b> with 38 mm sawblades	€ 14.940,00

## Twin-Bandsaw 800

**Vertical Headrigs** (faced to each other) with 800 mm band wheels for 54 mm wide sawblades, with main drive attachment, synchronous hydr. depth setting 80 - 300 mm, hydr. blade tensioning with sensor for control the tensioning pressure, adjustable blade guides, autom. blade lubrication, dust extraction point 150 mm,

**log infeed system**, 4,5 m with hydr. driven feeding chains with automatic lowering feeding fingers, for 1,50 m logs with various feeding speed, 4 pneumatic loaded tothed hold down roller (two before and two behind the blades), incl. electric box

TWIN80e	<b>with 2 x 15 kW electric motor 380 V, 50 Hz</b>	€ 66.193,00
TWIN01	<b>Bark disposal conveyor with ejection</b> (sensor controlled, ejection in central tub)	€ 11.543,00
TWIN02	<b>Digital depth set indicator</b> for Twin- and Re-bandsaw	€ 6.794,00
TWINSORT	<b>Sorting/ disposal conveyor</b> (for bark)	€ 4.876,00
TQHD8SgbS	<b>Sawblades sprung set (BI-Metal)</b> package (10 off)	€ 1.013,00
ShrmTQE	<b>PEZZOLATO- Sharpening machine PSM54</b> with manual setter	€ 5.218,00

## Re-Bandsaw 800

for horizontal off cut of the bark after and in combination with a Twin-Bandsaw, consisting of:

**Horizontal headrig** with 800 mm band wheels for 54 mm wide sawblades, complete with drive unit, hydr. depth setting up to 300 mm, adjustable cutting width, hydr. blade tensioning with sensor for pressure controll, adjustable blade guard, autom. controlled blade lubrication, with guiding roller, dust extraction connection 150 mm, electrically connected.

TRK80EZ	<b>with 15 kW electric motor 380 V, 50 Hz</b>	€ 26.479,00
	<b>Extensions</b>	
TWINverl 01	<b>Feeding chain extension for 2,5 m cutting length</b>	on request
TWINverl 02	<b>Extension of bark disposal unit for 2,5 m</b>	on request
TWINverl 03	<b>Extension of sorting/ disposal conveyor for 2,5 m</b>	on request

## Multi Head Bandsaw 800

**Horizontal Headrig** with 800 mm band wheels for 54mm wide sawblades, drive unit, depth setting up to 300 mm, hydr. blade tensioning with sensor for control of the tensioning pressure, adjustable blade guide, autom. controlled blade lubrication, dust extraction connection 150 mm, electrically connected ready for use.

**Standard feeding unit** consisting of hydr. driven napped conveyor belt with various drive and top working, self lifting hold down belts/ roller in front of every headrig, lateral guiding shields for three side edged 1,5 m long log models or beams.

MK80.5e	<b>Five Head Bandsaw</b> each with <b>15 kW Elektricmotor 380 V, 50 Hz</b>	€ 154.448,00
Mk80.Xe	<b>add. / deduction per headrig</b>	€ 30.891,00
TQHD8SgbS	<b>Sawblades sprung set (BI-Metal)</b> package (10 off)	€ 1.013,00
Rundl.A	<b>autom. roundabout</b> (outfeed side) with board deflector	on request
Rundl.E	<b>autom. roundabout</b> (infeed side)	on request
Abweiser	<b>single board deflector</b> (outfeed side)	on request
